This documentation, which includes embedded help systems and electronically distributed materials, (hereinafter referred to as the “Documentation”) is for your informational purposes only and is subject to change or withdrawal by CA at any time.

This Documentation may not be copied, transferred, reproduced, disclosed, modified or duplicated, in whole or in part, without the prior written consent of CA. This Documentation is confidential and proprietary information of CA and may not be disclosed by you or used for any purpose other than as may be permitted in (i) a separate agreement between you and CA governing your use of the CA software to which the Documentation relates; or (ii) a separate confidentiality agreement between you and CA.

Notwithstanding the foregoing, if you are a licensed user of the software product(s) addressed in the Documentation, you may print or otherwise make available a reasonable number of copies of the Documentation for internal use by you and your employees in connection with that software, provided that all CA copyright notices and legends are affixed to each reproduced copy.

The right to print or otherwise make available copies of the Documentation is limited to the period during which the applicable license for such software remains in full force and effect. Should the license terminate for any reason, it is your responsibility to certify in writing to CA that all copies and partial copies of the Documentation have been returned to CA or destroyed.

TO THE EXTENT PERMITTED BY APPLICABLE LAW, CA PROVIDES THIS DOCUMENTATION “AS IS” WITHOUT WARRANTY OF ANY KIND, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. IN NO EVENT WILL CA BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY LOSS OR DAMAGE, DIRECT OR INDIRECT, FROM THE USE OF THIS DOCUMENTATION, INCLUDING WITHOUT LIMITATION, LOST PROFITS, LOST INVESTMENT, BUSINESS INTERRUPTION, GOODWILL, OR LOST DATA, EVEN IF CA IS EXPRESSLY ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH LOSS OR DAMAGE.

The use of any software product referenced in the Documentation is governed by the applicable license agreement and such license agreement is not modified in any way by the terms of this notice.

The manufacturer of this Documentation is CA.

Provided with “Restricted Rights.” Use, duplication or disclosure by the United States Government is subject to the restrictions set forth in FAR Sections 12.212, 52.227-14, and 52.227-19(c)(1) - (2) and DFARS Section 252.227-7014(b)(3), as applicable, or their successors.

Contact CA Support

For your convenience, CA Technologies provides one site where you can access the information you need for your Home Office, Small Business, and Enterprise CA Technologies products. At [http://ca.com/support](http://ca.com/support), you can access the following:

- Online and telephone contact information for technical assistance and customer services
- Information about user communities and forums
- Product and documentation downloads
- CA Support policies and guidelines
- Other helpful resources appropriate for your product

**Note:** For software downloaded from the Open Workbench website, a self-supported online forum is available to access information about Open Workbench, ask questions, and share experiences with other users. Go to [http://www.openworkbench.org](http://www.openworkbench.org) for more information about your support options.

Provide Feedback

If you have comments or questions about CA Technologies product documentation, you can send a message to techpubs@ca.com.

If you would like to provide feedback about CA Technologies product documentation, complete our short customer survey, which is available on the CA Support website at [http://ca.com/docs](http://ca.com/docs).
Chapter 1: Welcome

The Open Workbench v2.0 Release Notes provide a list of resolved issues, system requirements, installation instructions and system requirements.

Note: See the Open Workbench user guide for more information about using Open Workbench.

What's New in This Release

The following new features are available in this release:

New User Interface
A new ribbon interface provides easy access to all commands found in the Open Workbench toolbar and menus. With the customizable Quick Access toolbar, users can create visible shortcuts to often used functionality. The new user interface changes also provide the foundation for additional interface and usability enhancements.

For more information about the new Open Workbench user interface, see the Open Workbench User Guide.

Quick Search
You can now quickly filter tasks by the task name and get instant feedback directly from the ribbon. The new Quick Search feature can also be used with the Extended Find feature.

Selective Scheduling
You can autoschedule specific tasks from a project without affecting the rest of the work plan. To autoschedule specific tasks, mark the tasks and select Auto Plan. This feature is only accessible from the menu you get when you right-click on a task. You cannot complete this task from the ribbon UI.

Quick Creation of Project Structure Plans
The introduction of Quick Change and Indent/Outdent buttons let you change the level of indention quickly in a project plan. You can create multiple tasks and change them to summary tasks or milestone tasks with the right level of indention. You do not have to open the task properties page and adjust the task type.
Chapter 2: Installation and Upgrade

Some versions of CA Clarity PPM require a mandatory upgrade of Open Workbench. See the CA Clarity PPM Release Notes for your specific version to determine compatibility requirements with Open Workbench.

Minimum System Requirements

Open Workbench v2.0 runs on the following operating systems:

- Windows XP SP2 or higher
- Windows Vista, all editions
- Windows 7, 32-bit and 64-bit, Professional edition or higher

Open Workbench requires Java Runtime Engine (JRE) version 1.6 or higher. You can download the latest version of JRE from http://www.java.com.

To install and run Open Workbench successfully, you must be a power user with the following rights:

- Registry Edit rights
- Read/write access for the %ProgramFiles% folder (for x86 Windows) or the %ProgramFiles(x86)% folder (for x64 Windows)

CA Technologies recommends at least 256 MB of RAM when using Open Workbench.

Before You Start

Uninstall any existing versions of Open Workbench before installing this version.

Important! The Open Workbench installer resets any customized views that you have saved in the Open Workbench library default views folder. Any saved, customized views from a previous installation are removed from the library when you reinstall Open Workbench. After installing the updated version of Open Workbench, you can add back your customized views to the default views folder.

See the Open Workbench Online Help for more information about adding views to library groups.
Uninstall Open Workbench

Use the add/remove programs tool in your operating system to uninstall Open Workbench.

Note: If you are using Microsoft Windows, go to Microsoft Support site (http://support.microsoft.com) for more information about using the Add or Remove Programs tool.

Install Open Workbench

To connect Open Workbench with CA Clarity PPM, you can download the latest version of Open Workbench and CA Clarity PPM Schedule Connect from the following:

- CA Clarity PPM DVD. From the DVD, navigate to Clients\OpenWorkbench and click owbsetup.exe.
- CA Clarity PPM. In CA Clarity PPM, select Account Settings from the Personal menu to access the Software Downloads page. You must have the Software Download - Open Workbench access right.

To use Open Workbench as stand-alone, you can download the latest version of Open Workbench from the Open Workbench website (www.openworkbench.org).

Follow these steps:
1. Download the latest version of Open Workbench.
   If your browser prompts you to open or save the executable file, click Save to save the file to your computer.
2. Double-click the executable file to start the installation process.
   A dialog box appears asking your language preference for the installer.
3. Select a language and click OK.
   A license agreement dialog box appears.
4. Agree to the Open Workbench license to continue with the installation.
   A series of dialog boxes take you through the setup process.
5. Follow the instructions on each dialog box to continue.
Chapter 3: Languages

Open Workbench is a multilingual application available in the following languages:

- Brazilian Portuguese
- English
- French
- German
- Japanese

The Open Workbench online help and user guide is available in the following languages:

- Brazilian Portuguese
- English
- Japanese
